La Dimora
ELEVATING YOUR HOMES

Core Materials
BUILD TO LAST

BWP Plywood

Ideal for Indian kitchens due to their exceptional water resistance and durability in varying climate conditions

- Boiling Water Proof Up to 72 Hours
- Exceptionally sturdy
- Termite Resistance
- AllWeather Usage

BWR Plywood

BWR Plywood, being more cost effective yet only slightly less water resistant compared to BWP Plywood offers a valuable alternative for Indian kitchens

- Boiling Water Resistance Upto 48 Hours
- Exceptionally sturdy
- Termite Resistance
- AllWeather Usage

HDHMR

HDHMR (High Density High Moisture Resistance) board, with its superior density and moisture resistance exhibits exceptional dimensional stability, ensuring minimal warping or bending, even under fluctuating environmental conditions

- Fairly Water Proof
- Fungus Resistance
- Termite Resistance
- AllWeather Usage

La Dimora
ELEVATING YOUR HOMES

HDF

Smooth finish that caters to diverse aesthetic preferences, and relatively good resistance to humidity, making it suitable for the varying climate conditions across India

- Smooth & consistent surface
- Highly Durable
- Moisture Resistance

MR Plywood

Ideally used for wardrobes carcass, as it offers a balance between cost-effectiveness and resistance to moderate levels of moisture

- Boiling Water Resistance Upto 6 Hours
- Cost Effective
- Termite Resistance
- All Weather Usage

MDF

A cost-effective option for a wide range of aesthetic preferences and budgets, but has a notable drawback in terms of moisture resistance

- Smooth & consistent surface
- Easy to carve and mold
- Termite Resistance

Welcome to the
KITCHEN
La Dimora
ELEVATING YOUR HOMES

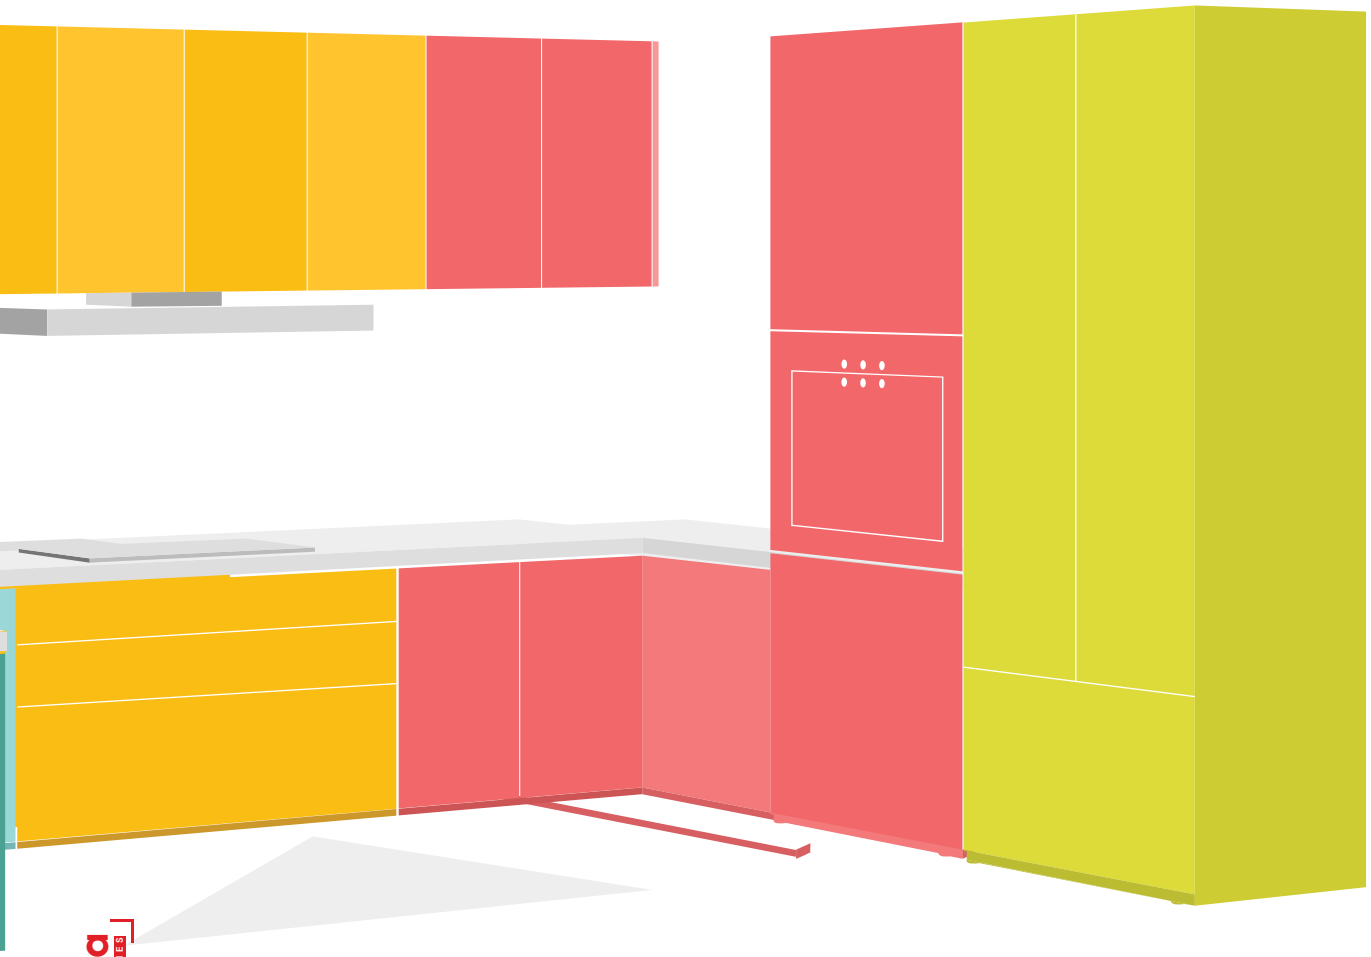

The Fine Kitchen Concept is an approach for efficient workflows that reduces unnecessary movement in the kitchen by creating an organized and functional environment. The fine kitchen concept splits the kitchen into five clear zones: cooking, food preparation, consumables, non-consumables, and cleaning. The cooking zone has the stove and oven. The food preparation area is for cutting and mixing ingredients. The consumables section is for items like fruits and vegetables, usually near the fridge. The non-consumables area is for storing pots, pans, and plates. The cleaning zone has the sink and dishwasher. This layout makes the kitchen easy to use and keeps it tidy. It also makes cooking more fun and hassle-free.

STAINLESS STEEL PU/PC SHUTTERS

PU (Polyurethane) coated shutters that have been treated with multiple layers of polyurethane coatings to enhance their appearance, durability, and performance. PU coating provides a protective layer that helps prevent warping, fading, and other forms of damage, You can typically wipe them down with a damp cloth to remove dust and dirt. PU coatings can enhance the visual appeal of shutters. They are available in various finishes, including glossy, matte, and metallic, allowing you to achieve the desired look for your space.

La Dimora
ELEVATING YOUR HOMES

STAINLESS STEEL GLASS SHUTTERS

We offer both glossy and matte glass doors, adding a touch of elegance and versatility to your kitchen space. We take pride in our meticulous craftsmanship, beginning with a 2mm glass panel that is carefully lacquered in our own facility to achieve the desired finish.

GLASS MATT BACKED WITH ALUMINUM CASING

GLASS GLOSSY ON ALUMINUM EDGE PROFILE

La Dimora
ELEVATING YOUR HOMES

STAINLESS STEEL STONE SHUTTERS

Our stone shutters are made from 3mm-thick porcelain slabs imported from Italy. These natural porcelain slabs are engineered to be fire-resistant, preventing burns and the emission of toxic substances, thus ensuring superior safety. Additionally, any stains can be easily removed from our shutters, ensuring that the colors remain vibrant and long lasting. Their hard surface also makes them highly resistant to scratches and abrasion

Swing Doors

Swing door wardrobes, also known as hinged door wardrobes, are a classic and ever-popular choice in wardrobe design. With doors that open outward on hinges, these wardrobes offer easy access to the full expanse of the storage space. They are perfect for spacious rooms where the doors can swing open without

HEIGHT	WIDTH	DEPTH
2100 mm (standard size) Other sizes - 2400 mm & 2700mm	400 to 1200 mm (all standard wardrobes in variation of 50 mm each)	570 mm

La Dimora
ELEVATING YOUR HOMES

Sliding Doors

Sliding door wardrobes are an ideal solution for modern homes, especially those looking to optimize space and enhance aesthetic appeal. Combining practicality with elegance, these wardrobes offer a sophisticated and streamlined approach to bedroom storage. One of the main advantages of sliding door wardrobes is their space-saving design. Unlike traditional hinged doors, sliding doors do not require additional room to open, making them an excellent choice for smaller bedrooms or compact spaces.

HEIGHT	WIDTH	DEPTH
2100 mm (standard size) Other sizes - 2400 mm & 2700mm	700 to 1200 mm (all standard wardrobes in variation of 50 mm each)	650 mm

Walk-in

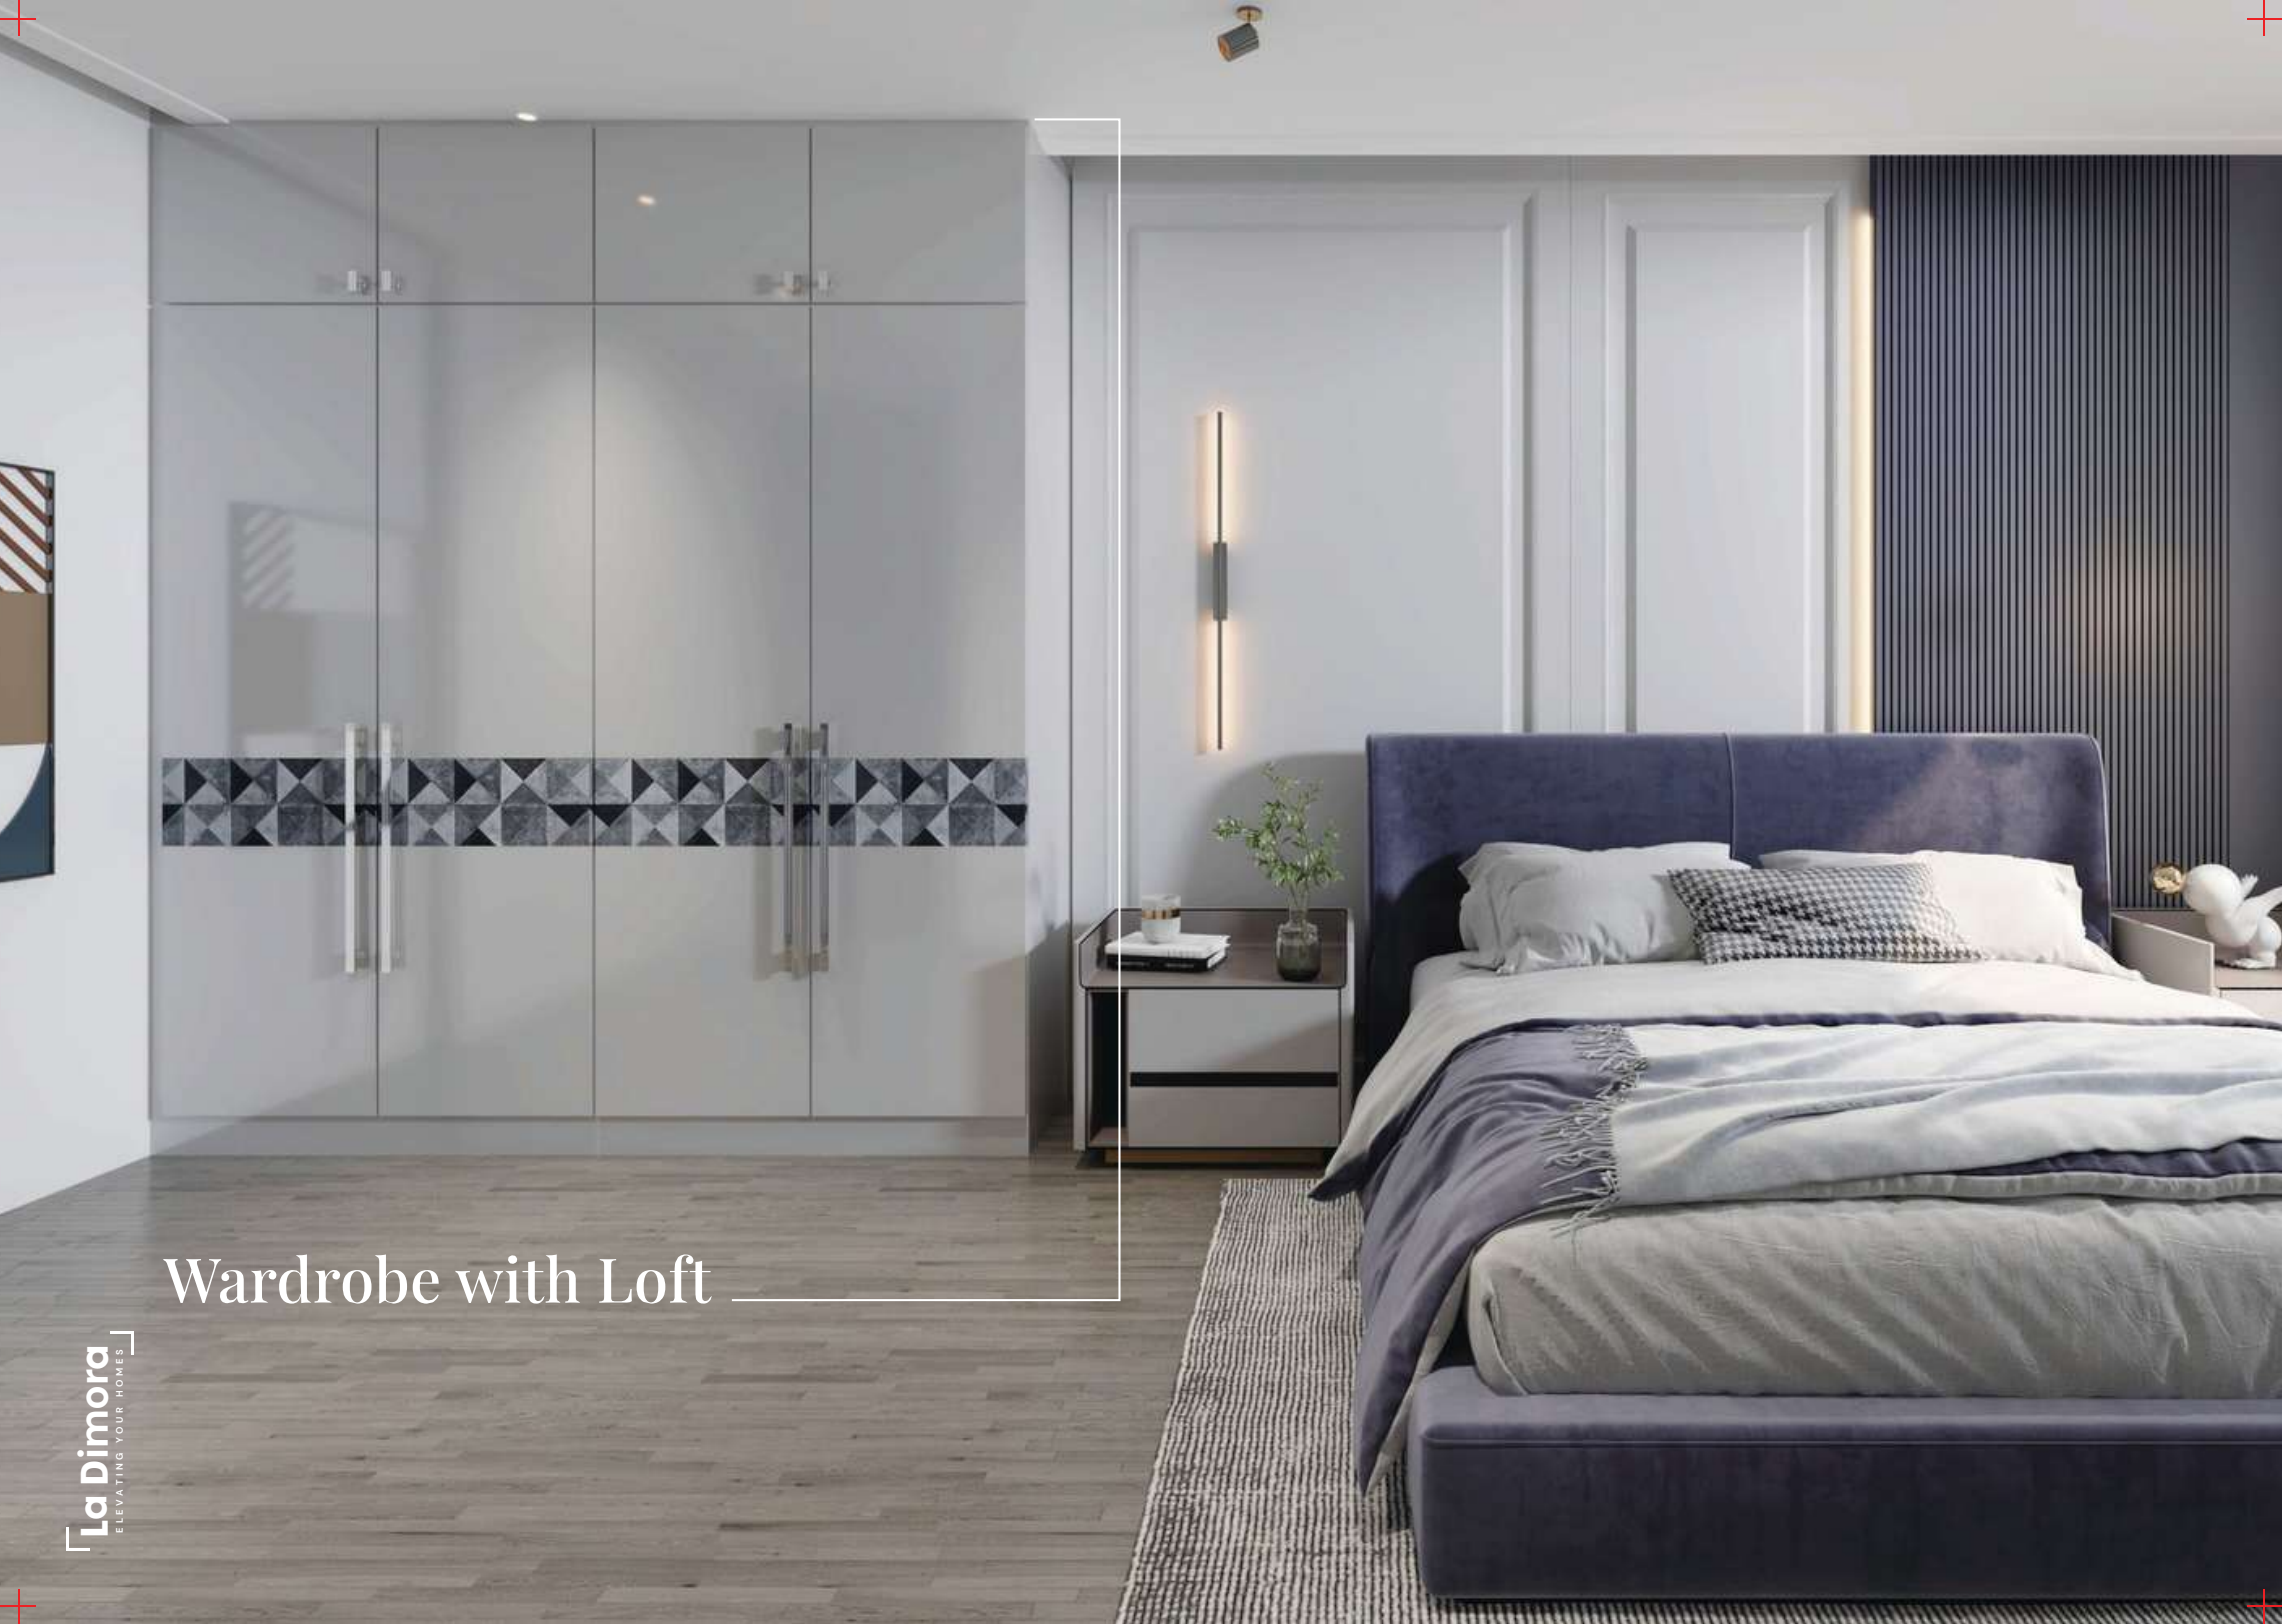

A walk-in wardrobe is a dedicated space that offers a luxurious solution for clothing and accessory storage, and is often considered a sign of opulence in a home. It's not just a closet, but a personal dressing area that elevates the process of dressing up and storing clothes to a whole new level. Walk-in wardrobes are also highly customizable to suit individual needs and preferences. The layout, fittings, lighting, and even the color scheme can be tailored to create a highly personal space that reflects your style.

HEIGHT	WIDTH	DEPTH

Wardrobe with Loft

La Dimora
ELEVATING YOUR HOMES

La Dimora
ELEVATING YOUR HOMES

La Dimora
ELEVATING YOUR HOMES

In India, a common practice in wardrobe design for certain finishes is to limit the height of wardrobe shutters to 7ft. The reasoning behind this standard is largely practical and pertains to the material properties of the shutters. When wardrobe shutters exceed this height, they tend to be more susceptible to warping or bending over time, especially in conditions of high humidity or temperature fluctuations. However, this does not mean that the space above 7ft is left unused. In many Indian homes, this area is optimally utilized by installing lofts. Lofts provide additional storage space, ideal for stashing away items that are not regularly used, such as luggage, seasonal clothing, or spare linens.
